AA Nickel Hydride Rechargeable Battery

Detailed product specifications are available on: us.100y.com.tw

Sanyo_Nickel Hydride, Rechargeable Battery

SANYO

Part No.	Product No.	Manufacturer	Description	Can Style	Volt.	Capacity mAh
25874	HR-3U-4P-2500	SANYO	Sanyo_Nickel Hydride, Rechargeable Battery	AA	1.2V	2800

It's a secondary battery which lasts more than twice as CADNICA batteries, Twicell uses hydrogen absorbing alloys in its negative electrode (anode) and nickel oxide in its positive electrode (cathode). Since its release, the first in the world in October 1990, the "twicell" sealed nickel-metal hydride battery has developed a strong reputation for high capacity, high performance and high quality. In November 1996, Sanyo was the first manufacturer in the world to achieve 300 million cells accumulatively.

Part No.	Product No.	Manufacturer	Description	Can Style	Volt.	Capacity mAh
20561	NH-AA-B2C	SONY	SONY Nickel Hydride, Rechargeable Battery	AA	1.2V	2100mAh

- Ultra high capacity up to 2500mA
 - Up to 1000 recharge cycles
 - Environmentally friendly
 - No memory effect
- Best for: PDA, GAME, Electronic Camera, Stock machine etc
