

CAPACITORS

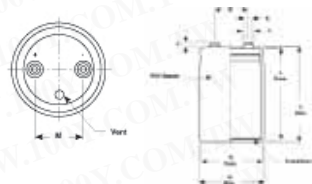

NIPPON_Screw-mount Terminal Electrolytic Capacitors

Detailed product specifications are available on: us.100y.com.tw

FEATURES:

- High capacitance per case size
- High ripple current
- Low leakage current
- Long shelf life and operating life
- Type 36D ratings recommended for replacement applications only. For new designs, see type 36DY

FEATURES:

- Rated voltage range: 350 to 550V de
- Endurance with ripple current: 85°C 2000 hours

FEATURES:

- Down sized from KME series
- Endurance with ripple current: 105°C 2000 hours

NIPPON_High Frequency Low Impedance Electrolytic Capacitors

FEATURES:

- Standard B1_polarized type
- Endurance: 1,000 hours at 105°C
- Solvent-proof type

FEATURES:

- Ultra low impedance for personal computer and storage equipment
- Endurance with ripple current: 1,000 to 5,000 hours at 105°C
- Non solvent-proof type

NIPPON_Low Impedance/ESR Electrolytic Capacitors

FEATURES:

- Newly innovative electrolyte is employed to minimize ESR
- Endurance with ripple current: 4,000 to 10,000 hours at 105°C
- Non solvent-proof type 63 to 100Vdc newly added
