5763	15/9/6-2	1-2 Data Switch	HD15P+D9P+PS2

### DATA SWITCH

- High quality rotary switch (close type)
- Fully shielded metal case
- Female connectors with Gold-plated contacts
- All lead switched

Part No.	Product No.	Description	Type
5767	15/9/6-4	1-4 Data Switch	HD15P+D9P+PS2

This date switch box has all Db25 female connectors. To connect 2 or 4 serial or parallel devices to one serial or parallel device.

To use with serial devices like an external modem, you will need one male to female db25 cable for each computer to the switch box.

To use with parallel devices like a printer, you will need one male to male db25 cable for each computer to the switch box and of course a printer cable.

Part No.	Product No.	Description	Type
4019	25-3	1-3 Data Switch	D25P
