

Multimeters & Panel Meters

LCR Meters

The MIC 4070D is an advanced hand-held digital LCR Meter with the ability to measure very low resistance with the 2Ω range (1mΩ resolution) and high inductances with 200H range and high capacitances with 20,000μF range.

Detailed product specifications are available on: us.100y.com.tw

Features:

- 0.1μ H to 200H Inductance Measurement
- 0.1pF to 20,000μF Capacitance Measurement
- 1MΩ to 20MΩ Resistance Measurement
- Dissipation Factor Measurement
- Zero Adjustment
- Quick Responding of Measurement

Part No.	Product No.	Description
12591	MIC-4070D	Digital LCR Meter

Low Ohm Meter

Detailed product specifications are available on: us.100y.com.tw

Part No.	Product No.	Manufacturer	Description
16083	HIKI-3453	HIKI	DIGITAL M HITESTER

Part No.	Product No.	Manufacturer	Description
46140	HIKI-3560	HIKI	Digital Milliohm Meter

Part No.	Product No.	Manufacturer	Description	Battery type	Dimension	Accuracy?	Range	Resolution?
50567	PROVA700	PROVA	Milli-Ohm Meter(5A max. test current)	1.2V AA rechargeable battery x 8(2700mAh)	257*155*57mm	0.05%	7 Ranges(16m-6K)	best resolution 1

FUNCTIONS

- Function keys: ZERO, TEST, LOCK
- Automatic zero adjustment
- Continuity test
- Measures high insulation resistance (4MΩ/40MΩ/400MΩ/1000MΩ) with auto range of 250V, and (4MΩ/40MΩ/400MΩ/2000MΩ) with auto range of 500V and (4MΩ/40MΩ/400MΩ/4000MΩ) with auto range of 1000V

- Measures DC voltage (0V~600V) , AC Voltage (0V~600V)
- Auto power OFF
- Auto discharge

Part No.	Product No.	Description
49288	TM-507	DIGITAL INSULATION TESTER

ABM_Programmable Milli-Ohm Meter

Detailed product specifications are available on: us.100y.com.tw

Part No.	Product No.	Description
15684	3245	DIGITAL M HITESTER

Calibrator

Detailed product specifications are available on: us.100y.com.tw

FEATURES

- Portable instrument for calibrating process devices and measuring process signals
- Adjustable 0-24mA current source
- Adjustable-199.9mV to +199.9mV DCV source
- Current calibrator drives loads up to 500 ohms
- The instruments power or measure a two-wire current loop
- Four function provide the quality and accuracy of handheld calibrator: 1) Precision current source, 2) Measurement of a current signal, 3) Power and measurement of two wire loop, 4) Precision DC mV source

Part No.	Product No.	Manufacturer	Description
28986	CC-421	LUTRON	4-20mA Loop Calibrator
