FEATURES

- UL510 certified.
- Environment-friendly and complies with Notification No.20 of the Ministry of Health, Labor and Welfare.
- Superior in mold-releasing and sliding property.
- Uses the Class H insulating material.
- Superior flame resistance.
- Non-adhesive side of the tape offers excellent characteristics of polytetrafluoroethylene, such as electrical property, resistance to heat, weather, chemical, and water (water-shedding), low friction coefficient and non-adhesiveness.
- Can smoothly adhere, wind, band and seal, just like regular adhesive tapes.
