These tips are designed for handling very tiny parts. Tips are available in ESD Safe Delrin plastic so there is no chance of static or mechanical damage. For a lower cost tip Non-ESD Safe Delrin is also available. These tips must be used with continuous vacuum systems only.

- Beige Delrin - Static Dissipative temperature up to 212°F (100°C).
- White Delrin Acetal - Non ESD Safe temperatures up to 212°F (100°C).
