Features

- Hold down a switch and distance this demagnetizer from a target object. At that time, the target object demagnetize. (When press a push switch, this demagnetizer generate the magnetism.)
- This demagnetizer is usable in both lengthwise direction and a cross direction.
- Because small and light, it is convenient for field maintenance and repair.
- Built-in thermo fuse (130°C). For prevention against the overheat.
