

Hand Tools & Kits

Torque Tools

Detailed product specifications are available on: us.100y.com.tw

Description: Rotary Slip Clutch Mechanism, Reducing The Possibility Of Over-Torque.

Note 1: Bits are optional. Select required bits from the table on page 27.

Note 2: Handle bar for RTD500CN (50RTD) is optional

Part No.	Product No.	Manufacturer	Description	Adjust range	Length	Weight	ACCURACY
2227	26RTD	TOHNICHI	Torque Tools	6~26kgf-cm	140mm	225g	0.2

1. Rotary slip clutch mechanism.
2. Reducing the possibility of over-torque by "slipping" when more force is applied beyond "click" or set torque.
3. Toggle clutch type torque detection mechanism ensures long durability.
4. Easy to adjust torque value.
5. Locking mechanism prevents the change of torque while in use. (Available for RTD15CN-RTD260CN only)
