Detailed product specifications are available on: [us.100y.com.tw](http://us.100y.com.tw)

A diamond blade is included as standard to cut ceramic, glass epoxy boards.

By replacing a disc cutter, a diverse range of materials such as metals, plastic and wood can also be cut.

No burring or recoil at the cutting surface when using the diamond cutter. In addition, it is used for beveling. The cutter is lightweight and compact, making it easy to transport.
