

BNC Serie Connectors Nickel Plated- BNC Crimp Plugs and Jacks

Detailed product specifications are available on: us.100y.com.tw

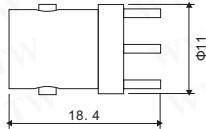

FEATURES:

The BNC series coaxial connector, a medium sized coaxial connector with bayonet lock, has found its way into the lower microwave frequency applications. 50Ω impedance for applications up to 4GHz and 75Ω impedance for up to 1GHz. All 75Ω BNC and 50Ω BNC connectors are interminable without restrictions possessing good performance, strength and reliability.

Part No.	Product No.	Description	Impedance (Ω)	Cable Types
2894	MCI-7001A	BNC Crimp Plug	50	RG58A/U
32153	MCI-7001B	BNC Crimp Plug	50	RG59/U

RS-232 Cables

Detailed product specifications are available on: us.100y.com.tw

Permeate printer cable, have no use for other special cables
Or to extend any 22 pin cable

Part No.	Product No.	Description	Length (M)	M/F,M/M,F/F	Pins
15954	AS-25P+25P-5M	RS-232 Extension Cable	5M	M/M	25P
15953	AS-25P+25S-5M	RS-232 Extension Cable	5M	M/F	25P

KEY FEATURES

Well this 6 foot DB9 male to female (9C) extension cable is your solution

SPECIFICATION

Materials

contact: gold flash 1U" min
shell: tin-plated
wire insulation: PVC
foil shield: aluminum mylar
jacket: PVC
insulation material: polyester resin & glass
fiber reinforced (UL94V-0)

Electrical

current rating: 1Amp
dielectric withstanding voltage: AC 500V (for 1 minute)
insulation resistance: 1000MOhms Min. @500V DC
contact resistance: 15MOhms Max. Mated
working temperature: -55deg. C to 105deg. C

Coaxial Stripping Tools

Detailed product specifications are available on: us.100y.com.tw

Blades' Depth

You may use the hex wrench, which is install on the bottom of the tool to adjust the blades' depth. Insert the hex wrench into the blade depth adjuster on the bottom of the stripper, then rotate the hex wrench clockwise (to cut smaller cable) or counter clockwise (to cut larger cable). Repeat above steps to set the other blade.

Stripping Cable

- Use hex wrench to push the V-block out of the housing, align the character on the V-block with the arrow, and then insert the V-block into its housing. The indicated arrow recommended the RG cable size mark in front of the V-block. The V-block is reversible
- Press the knurled portion on the upper jaw to open the stripper's jaws
- Insert the cable you want to strip through the V-block until the cable reaches the V-shaped cable guide. Then release the upper jaw to close the jaws
- Insert your index finger into the stripper's finger ring, turn the stripper clockwise 3-5 times. The cable's insulation is cut while you turn the stripper
- Open the jaws and remove the cable. Pull away the outer jacket and dielectric to expose the inner conductor

Part No.	Product No.	Description	Cable Type	Type
11202	HT-312B	Coaxial Stripping Tools	RG-58/59/62/3c/4c	108mm

Stripping Length

This stripper can strip cable in four lengths 4, 6, 8, and 12mm. The stripping length is preset to 6mm. If you want to strip other lengths, you may adjust the blade's position.

Blades' Depth

You may use the hex wrench, which is install on the bottom of the tool to adjust the blades' depth. Insert the hex wrench into the blade depth adjuster on the bottom of the stripper, then rotate the hex wrench clockwise (to cut smaller cable) or counter clockwise (to cut large cable). Repeat above steps to set the other blade

Stripping Cable

- The V-block is reversible. Use hex wrench to push the V-block out of the housing, align the character on the V-block with the arrow, then insert the V-block into its housing. The indicated arrow recommended the RG cable size mark in front of the V-block. 6=RG6 (5C2V), 8=RG58 (3C2V), 9=RG59/62 D=RG-174 (for HT-332D)
- Press the knurled portion on the upper jaw to open the stripper's jaws
- Insert the cable you want to strip through the V-block until the cable reaches the V-shaped cable guide. Then release the upper jaw to close the jaws.
- Insert you index finger into the stripper's finger ring, turn the stripper clockwise 1-4 times. The cable's insulation is cut while you turn the stripper.
- Open the jaws and remove the cable. pull away the outer jacket and dielectric to expose the inner conductor

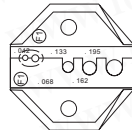

Part No.	Product No.	Description	Cable Type	Length
8565	HT-332	Coaxial Stripping Tools	RG-58/59/62/6/6QS/3C/4C/5C	99mm
21330	HT-332D	Coaxial Stripping Tools	RG-58/59/62/6/6QS/3C/4C/5C	99mm

Stripping the coax jacket and inner conductor in one operation and rotating the stripper clockwise by 3-6 times. Easy and effective. For stripping different materials of cable with the built-in hex to align the sensitive socket and adjust the blade for good results. The V-block can be reversed, and the indication arrow recommended the RG cable size
